Can't wait to eat a pawpaw?

**We now have Frozen Pawpaw Purée available year-around!
All the skin, seeds and fibers have been removed to ensure uniform quality. Made from the fresh fruit in our orchards!
1 pint (16oz) = \$10 + S&H
1 quart (32oz) = \$18 + S&H**

Orders will be filled as they are received.

Due to the increase in demand for Pawpaws, we apologize for the limited numbers of grafted Pawpaws available.

We are currently in the process of growing and grafting trees for future seasons.

While all efforts are made to keep this list accurate, we apologize for human and mother nature's errors.

<u>Name</u>	<u>Description</u>	<u>Fruit Size</u>	<u>Ripening Time (In Michigan)</u>	Currently In Stock At Nash Nurseries
Seedling	Seedling trees are grown from seed harvested from the orchards at Nash Nurseries. All seed used is harvested from named grafted cultivars. There is no guarantee of what the fruit size, flavor, or ripening time will be. Seedlings are a good choice for an inexpensive pollinator and rootstock. You may also hit the pawpaw jackpot and end up with a truly amazing, delicious pawpaw that is just waiting to become the next sensation!	?	Fall	Yes
Convis	Yellow flesh, mottled green skin. A Corwin Davis selection.	Large	1st week of October	2021
Davis	Selected from a wild grove in Michigan by Corwin Davis. Mottled green skin and yellow flesh. Keeps well in cold storage. A favorite here at the nursery.	Large-Very Large	1st week of October	Yes
KSU - Atwood™	Released by Kentucky State University Horticulture Program. High yielding. Fruit has yellow-orange flesh. Very good mango-banana-pineapple flavor.	Medium	1st week of October	Yes
KSU - Benson™	Another variety newly introduced by Kentucky State University, KSU-Benson Pawpaw™ is prized for it's heavy crop, 150 or more fruit per tree, and rich and delicious flavor. This pawpaw variety is a high yielding, round, early season ripening variety. It has a unique mango, banana, pineapple like flavor.	Medium	Late September	2021
KSU - Chappell™	KSU Chappell is an impressive new cultivar developed by Kentucky State University. Outstanding flavor, texture, and beautiful, large fruits. Fruits average around 8-12 ounces with some larger, around 1 pound. Trees are very vigorous, strong and extremely fast growing. It might be the fastest growing pawpaw cultivar available.	Large	1st week of October	2021
Looking Glass Gold	Named after the river running behind Nash Nurseries. One of Bill's original pawpaws planted and is one of our absolute favorites! Large fruit that is very sweet and spiced. An early-mid ripening tree that is always picked clean and enjoyed at the market or right off the tree. Top selling fruit here at the nursery.	Large	Mid-Late September	2020
Lynn's Favorite	Another cultivar selected from Corwin Davis's orchard. Remarkable golden flesh, and very smooth.	Medium-Large	2nd week of October	Yes
Mango	Selected from wild in Tifton, GA in 1970. Known for its vigorous growth and hardiness. Round, plump, juicy fruit resembling its namesake.	Large	1st week of October	Yes
NC-1	This hybrid seedling of Davis x Overleese is one of Nash Nurseries favorites. Selected in Ontario, Canada in 1976. Fruit has few seeds and ripens earlier than most. One of our most consistent market-ready fruit.	Large	Mid-September	Yes
Overleese	Selected from wild in Rushville, IN in 1950. Sets large, juicy fruit with great flavor. Very orange-yellow flesh and consistent market favorite.	Large	1st week of October	Yes
Pennsylvania Golden	Fruit has yellow skin when ripening and golden flesh. One of earliest ripening pawpaws that we carry. Very hardy, very flavorful and sweet.	Medium	Mid-September	Yes

<u>Name</u>	<u>Description</u>	<u>Fruit Size</u>	<u>Ripening Time (In Michigan)</u>	Currently In Stock At Nash Nurseries
Peterson Allegheny®	Size of fruit can be increased by thinning when fruit set is high. Firm and smooth flesh, yellow in color. Very sweet flavor with a touch of citrus.	Medium	Late September	Yes
Peterson Potomac®	Selected by Neal Peterson. Fruit is extremely fleshy and typically the least seeds of all cultivars. Firm texture with sweet & rich flavor.	Large	1st week of October	Yes
Peterson Rappahannock®	Selected by Neal Peterson. Fruit tends to show a yellowish color break at picking stage. This tree is particularly noteworthy due to its unusual leaf habit. Leaves tend to be held horizontal-to-upright making fruit more visible. Very bright crisp, sweet yellow pulp.	Medium	Last week of September	Yes
Peterson Shenandoah®	Selected by Neal Peterson as a seedling of Overleese. Fruit has creamy yellow flesh with few seeds. Excellent sweet, smooth creamy flavor. A hit at every fresh market.	Large-Very Large	1st week of October	Yes
Peterson Susquehanna®	Selected by Neal Peterson. Fruit tends to have few seeds and be very fleshy. Thick skin makes this variety less fragile than others, making it perfect to ship to a friend. Excellent sweet, aromatic flavor.	Large-Very Large	2nd week of October	Yes
Peterson Tallahatchie®	Latest Peterson release. Excellent flavor, low seed count, smooth texture. Multiple fruit - often more than 5 - in cluster.	Medium to Large	2nd week of October	2021
Peterson Wabash®	Selected by Neal Peterson. Fruit flesh is moderately firm, creamy, and sweet. Flesh color is yellow to orange. One of - if not the biggest fruit we grow at the nursery.	Very Large	2nd week of October	Yes
Prolific	Selected by Corwin Davis in Bellevue, MI. Fast grower and fruit has light golden flesh.	Medium	1st week of October	Yes
Sunflower	Claimed as a self-fertile cultivar. Deep yellow skin with butter-color flesh. Few seeds and large fruit size make this cultivar stand out.	Large	1st week of October	Yes
Super Mario	Named after our great friend and lead grafter Mario. This tree is one of his favorite trees selected from his orchard. It is a very large fruit with a very sweet flavor and spiced aroma. It has proven to be unique with the fruit gradually ripening throughout the harvest season. A truly super pawpaw!	Large to Very Large	Mid-September through Mid October	2020
Taylor	Selected from the wild in Eaton Rapids, MI by Corwin Davis. Fruit has light green skin and yellow flesh.	Medium	1st week of October	2021
